Because this day

In 2023, 20 years of management of the Speleological lodge "C. Seppenhofer" in Taipana by the Centro Ricerche Carsiche "C. Seppenhofer". Wishing to worthily celebrate the achievement of this important milestone, we thought we'd invite all our friends and all those who have supported and put up with us over the years to a meeting to remember this date. We decided to give a significant tone to this day by also organizing a round-table meeting set up on the old themes already introduced in the past by the various "Friendship Triangles". For this reason, friends from neighboring states were also invited to participate: Austria and Slovenia, with whom we have always collaborated. Certain that this initiative meets your interest, we invite you to join this invitation.
